REPORT GENERATION

SMS INTEGRATION

TEKORION Pvt. Ltd.

In Todays fast evolving, techno-driven world, managing a school and creating a place for itself in the edu-world is one of the biggest challenges for the management or administrative committees at schools. It can often be next to impossible to focus on each and every domain or department in the school and strive to enhance the functionality of school. The need of making use of the technology has always been felt by the schools which really promise of curtailment of the extra costs, reduction in time or of bringing in efficiency in school management tasks etc....

Nameslip School ERP System is revolutionary school management software introduced to simplify the complexities faced in daily school operations. Nameslip has been tailored for all management, administration and education related activities. Use Nameslip to effectively manage processes and operations related to teachers, students, courses, employees and so on. Nameslip is a customizable software that suits for a variety of educational institutions including:-

Schools   Kindergarden

Universities   Colleges

Online Schools   Training Centers

Seminary   Group of Institution

STUDENT'S MODULE

A place where you can manage all student activities and operations at one go. This module allows separate ids for each and every student at your school. Let your students log in, to get details from your school directly. Maintains separate page for every student in your institution, with one click you can get access to complete information of a specific student including- personal details, mailing address, last fee payment details, attendance report and soon

PARENT'S MODULE

"Parent Module" is crafted with lot of concentration on what parents can expect or what they may look for. Parents who have no time to visit the school but are very much concerned about their child's studies would also love to get through the details at a few clicks. Logging into their account, parents can view reports on attendance of their child, performance at studies or in co-curricular activities etc. They can take a look at the timetable, schedule of the week, reports on tests, exams etc.

TEACHER'S MODULE

"Teachers module" is an integral part of Nameslip , because most of the crucial operations such as creation of schedules, releasing examination details, report submission, forums etc., are tied with this module. Teachers can log into their account and get the most updated reports on students' attendance, their performance etc. They can get in touch with the parents too. It helps teachers in reducing their workload. They can get real-time visibility in data related to each and every student they teach. It allows teachers to be ready with future plans for the students too.

ADMIN'S MODULE

Admin Module" is the heart of Nameslip and this module centrally takes care of every school related task or activity with utmost care. Nameslip, as it is blessed with innumerable qualities, is a way to streamline every management or administration activity at schools. It offers a convenient way to interact or communicate with your school community or others who are directly or indirectly a part of your school. It is an effective tool which can help you in managing information in the best way.
